

Joshua Mutch

I am a dedicated and hard working games programmer who specialises in Unity and C#. Additionally, I adore games as it's a personal favourite hobby of mine and this means that I have extensive research and knowledge into what can make games amazing.

EXPERIENCE

Card Factory, Cheltenham— Team Leader

July 2023 - PRESENT

This Job role includes many responsibilities such as counting tills and the safe, opening and closing the store, ensuring the store trades smoothly and efficiently throughout the day, resolving any customer/colleague issues and ensuring high standards are maintained throughout the store.

Sainsburys, Barnstaple— Sales assistant

July 2022 - SEPT 2022

This job role was just a temporary and simple restocking role but also allowed me to build my social skills and improve my customer service skills.

EDUCATION

University of Gloucestershire, Cheltenham - Bsc in Games Programming - Grade Pending.

Exeter College, Exeter — T Level in Digital Production, Design and Development - Merit

During the 2 years i spent on this course i learnt to code in multiple languages such as C#, HTML, CSS, JavaScript, Python and SQL. These languages allowed me to gain a better knowledge of how to code and gain the foundations that allows me to succeed in other areas similar to this. Additionally, I often had to work in groups with peers and complete group projects which allowed me to improve my teamwork and communication skills.

Chulmleigh Community College, Chulmleigh— GCSE's

- Science (7-6)
- French (5)
- History (7)
- Geography (5)

SKILLS

Confident programming ability in C#, C++, HTML, CSS, Javascript, SQL and Python.

Strong computer hardware knowledge including experience with building custom PC's

Experience and confident in both unreal engine and unity

- Maths (8)
- Computer Science (6)
- English Language (4)
- English Literature (6)
